AERIAL SURVEILLANCE MISSION AUDIT REPORT

Autonomous 3D Drone Digital Twin | Generated: 2026-10-31 23:24:53 | Mission ID: **MSN-TEST-AUTO**

Mission ID	MSN-TEST-AUTO	**Status**	COMPLETE
Start Time	2026-10-31 23:14:53	**Scenario**	Border, Wildlife & Hazard Monitoring
Total Distance Flown	420.5 meters	**Battery Consumed**	28.5%
Assigned Sectors	Alpha (Base), Bravo (Forest), Charlie (River), Delta (Ridge)	**RTB Events**	0

OBSERVATION BREAKDOWN: PEOPLE, WILDLIFE ANIMALS & HAZARDS

Entity Category	Count	Sample Identified Labels	Avg Confidence	Detected Zones
WILDLIFE ANIMALS	1	Wildlife	85.0%	Zone Bravo

CHRONOLOGICAL OBSERVATIONS & AUDIT TRAIL (ALL PLACES)

Time	Track ID	Label	Zone / Sector	Territory	World (X,Y)	Conf
23:17:48	TRK-099	Wildlife (Fauna)	Zone Bravo	FOREIGN	(-50.0, 40.0)	85%

REGULATORY LIMITATIONS & OBJECTIVE OBSERVATION STATEMENT

Notice: This surveillance simulation system adheres to strictly objective, non-hostile recording standards. Human observations record visible presence and coordinate telemetry without automated determinations of hostility, culpability, or threat status. Thermal readings represent synthetic sensor models of relative radiance. All events remain subject to human operator verification and annotation.
